Railways
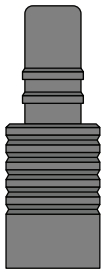
Hollow Ballastick®

Derby® Rubber

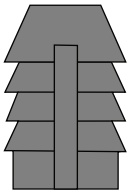
A one-piece broom element – with a difference!

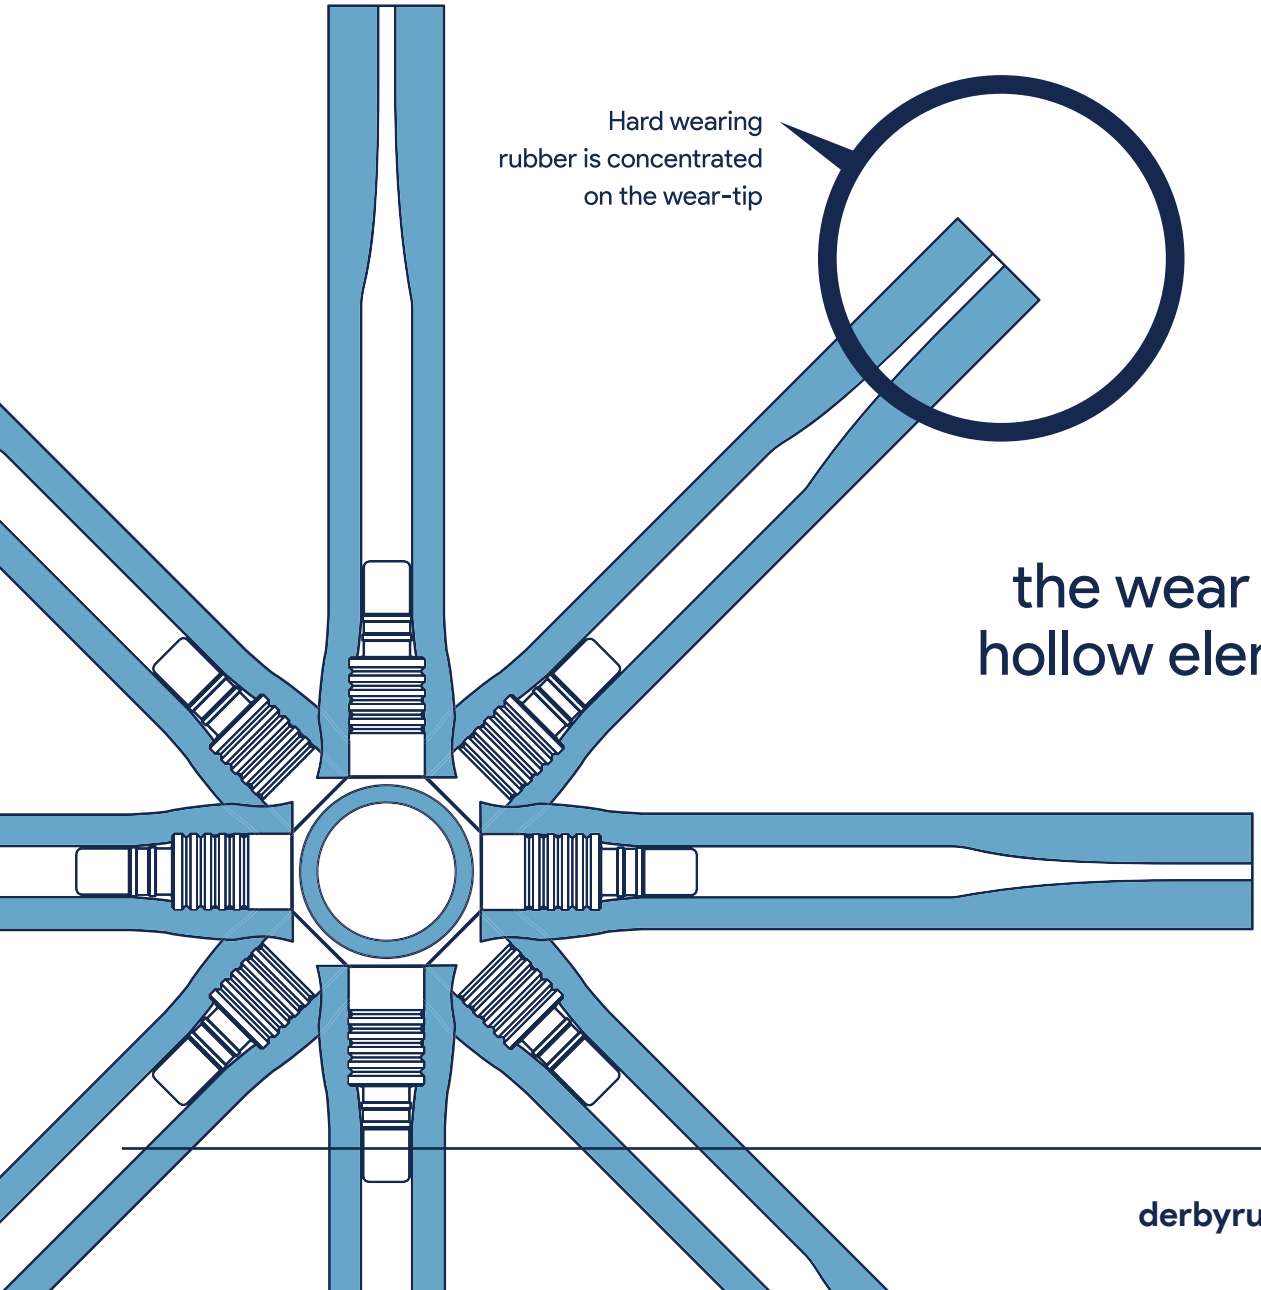
- Outstanding performance and durability for reduced lifecycle costs
- One-piece construction lasts longer than glued-in plug imitations
- The heavy walled wear-tip maintains effective sweeping, helping the ballast regulator keep pace with modern tamping machines

EU SPIGOT
To suit most European applications



TYPE B SPIGOT
Incorporates cutting groove

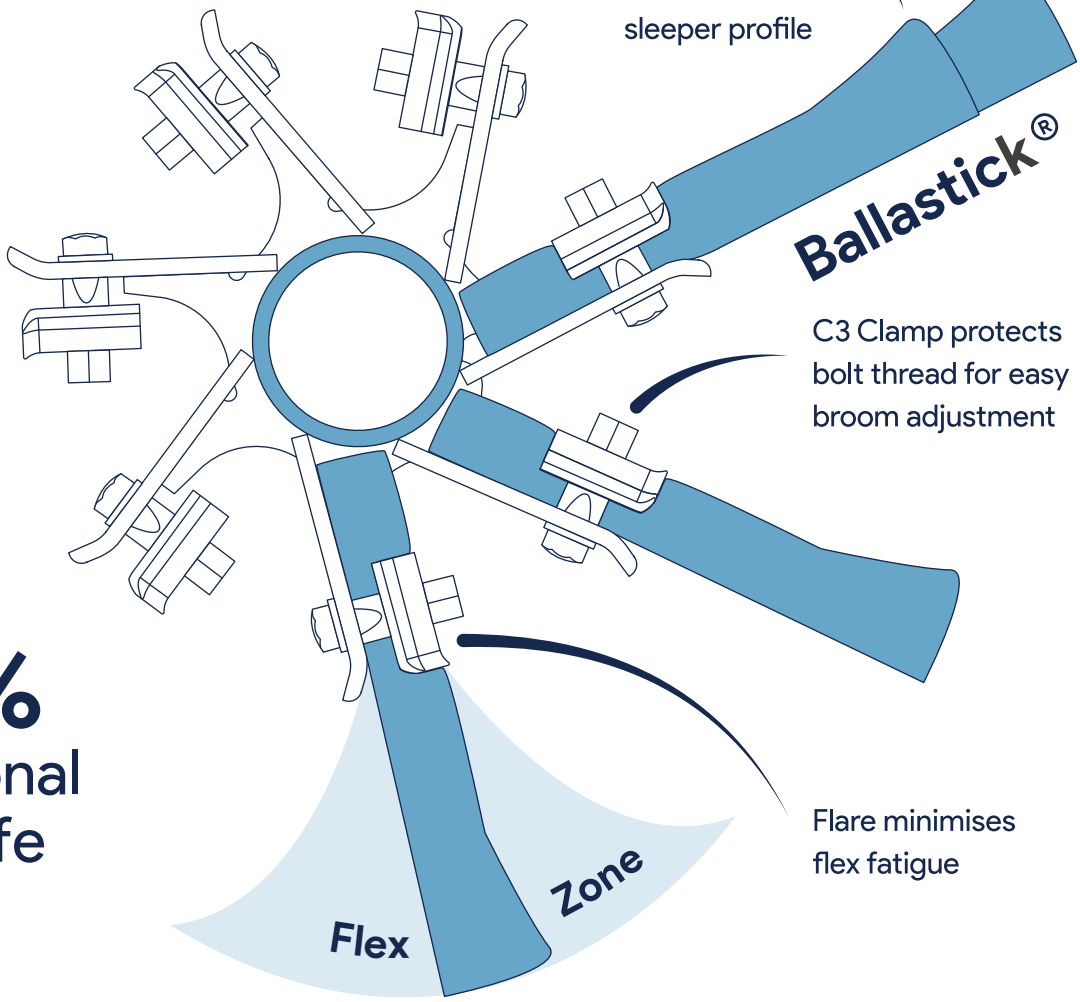




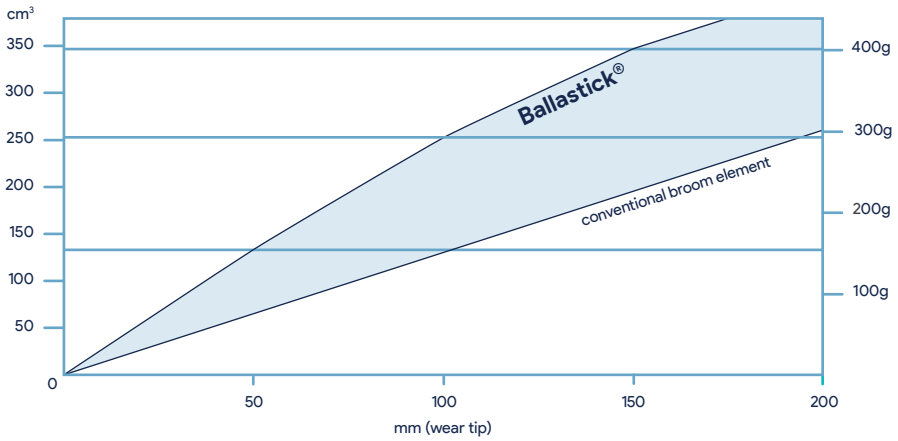
2X
the wear life of hollow elements

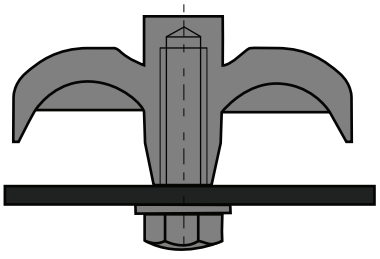
Railways
Solid Ballastick®

More where it matters, for longer wear and better performance.



40%
additional wear life





Accessories
DRC3 – Derby Quick-Change Clamp (to suit M16 bolt)
